github.com/misbah216 | Ghaziabad, Uttar Pradesh

Summary

Full-Stack Developer (B.Tech CSE, Expected 2027) with strong fundamentals in Data Structures, Algorithms, and Object-Oriented Programming. Proficient in the MERN stack (MongoDB, Express.js, React, Node.js) and Python, with hands-on experience building full-stack applications featuring real-time features, authentication systems, and third-party API integrations, including payment gateway integration. Strong problem-solving ability with a focus on writing clean, maintainable code. Seeking a Software Engineer Intern role to apply technical expertise in full-stack application development and contribute to building scalable, real-world solutions.

Education

- **RKGIT, Ghaziabad** — Ghaziabad, UP
  B.Tech Computer Science & Engineering - CGPA: 8.38/10 — *Expected May 2027*

Technical Skills

- **Languages**: Python, JavaScript (ES6+), C , SQL
- **Core CS Fundamentals**: Data Structures, Algorithms, OOPs, DBMS, Operating Systems and Computer Networks
- **Frontend**: HTML5, CSS3, React JS, Bootstrap, Responsive Design
- **Backend**: Node.js, Express.js, REST APIs, Middleware, API Design
- **Database**: MongoDB, Mongoose, Schema Design, CRUD Operations, Query Optimization
- **Payment & Third-Party Integration**: Razorpay Payment Gateway, JWT Authentication, REST API Integration
- **Tools**: Git, GitHub, VS Code, Postman, MongoDB Compass, Python IDEs
- **Soft Skills**: Problem-Solving, Analytical Thinking, Team Collaboration, Learning Mindset

Projects

PrabandhPro - Employee Management System : React, Node.js, Express, MongoDB
https://employee-management-system-clbz.onrender.com

- Full-stack employee dashboard with admin authentication and role-based access control
- JWT login/signup, secure password hashing, email OTP forgot password with reset
- Admin dashboard: employee records, salary calculations, recently added employees, full details
- Features: add/update/delete employees, dark/light theme toggle, responsive UI, MongoDB storage
- Express APIs with auth middleware, Mongoose validation. Deployed on Render.

Moodify - Mood-Based Music Recommendation App : React, Node.js, Express, MongoDB, Razorpay
https://moodify-nine-lilac.vercel.app/ | https://github.com/misbah216/Moodify

- Real-time facial expression detection via webcam (MediaPipe) to identify user mood and auto-play matching curated playlists
- Full-stack MERN architecture with JWT authentication, favorites management, and timestamped personal mood journaling
- Integrated Razorpay Checkout to unlock premium curated playlists, with backend verification persisting unlock status per user in MongoDB
- Refactored backend from static/third-party data to a fully database-driven model with case-insensitive query handling

Experience & Training

Codveda Technologies - Full Stack Development Intern July 2026 - August 2026

Completed a full-stack development internship focused on building production-ready applications, implementing security features, and writing scalable, maintainable code.

Web Development Training - Cohort 2.0 | Sheryians Coding School September 2025 - Present

Comprehensive training covering DSA, aptitude, full-stack development (HTML5, CSS3, JavaScript, React, Node.js, Express, MongoDB), frontend animations, authentication systems, REST API design, deployment strategies, Generative AI, and multiple hands-on projects.
